## Post-construction Cleaning

Post-construction buildings are uninhabitable as a result of the mess that is left. You might be standing in a stunning, freshly built property, but there is still something that needs to be done before you can move into in-building cleansing.

A new building cleaning is best to be handled by a team of fully qualified, fully insured and experienced cleaning professionals if you aren't aware of the specific requirements. In the process, industrial equipment are used as well as special products are utilized to help remove fine debris that typically finds its way to every inch of a newly constructed home. With years of experience within the post-renovation cleaning area, the expert cleansers at AU Cleaning Group, surpass plain surface cleansing to guarantee that you are moving right into a truly tidy and also habitable residence with top to lower building and construction cleaning company in Sydney.

Moreover, you can trust AU Cleaning Group, Sydney's premier home and commercial cleaning company, to clean your tiled floors and walls; from bathrooms to kitchens to pools and patios! Using our professional, comprehensive floor tile and grout cleaning company in Sydney, even the filthiest grout lines can be made to look brand new once again thanks to our extensive knowledge and experience in the field.

Various types of ceramic tiles have different cleaning requirements, so it is necessary to hire a cleaning service that is knowledgeable about all the possible options. With Au Cleaning Group, you can count on a well-versed tile and cement cleaning service that will make your floors sparkle! For a satisfactory, risk-free, and damage-free result when cleaning floor tile grout, it is particularly important to have first-hand experience and knowledge. We offer all of these services, and a lot more.

## Deep Cleaning

A deep clean is the best way to make your house look it's very best.

Think of a house that is spotless from top to bottom, every room neat and tidy with nothing left out; if that sounds like a dream, AU Cleaning Group can help you achieve that dream! We guarantee A++ cleaning results that leave no 'missed spots' in your home after our deep cleaning services. Thanks to our pro team of trusted and dedicated cleaners, with Au Cleaning Group, customers can expect nothing short of top-quality service from beginning to end.

What is a deep cleaning service?

Deep cleaning is a process that ensures a thorough, top-to-bottom cleaning of a house or business. Cleanliness, tidiness, and sterilisation are ensured at every step. Unlike regular cleaning services, deep cleaning takes up to 3-4 hours (with a professional cleaning team), depending on the size of the house and the number of bedrooms. We typically spend between 60- and 90-minutes cleaning each bedroom at AU Cleaning Group. Additionally, deep cleaning includes tasks such as removing cobwebs, dusting doors and door frames, wiping cabinet doors, etc.

Deep cleaning is definitely something the experts recommend if you've never done it before. There are many benefits to living in a clean and sanitary home or office, and less to do with aesthetic appeal.

How long will it take to clean my house?

Your home's condition plays a major role in this decision. For a baseline, take your number of bedrooms and convert them into hours. (Example: 3 Bedrooms = 3 hours). Contact us for free no obligation quote.
